- Umer: Wrote pre-game use cases and derived functional requirements Done Usability and Humanity (16, 19) requirements.

Coding project and Jira.....[15min]

- We talked about our current and next week sprints.
- We discuss how our find camping grounds feature will work, we are going to research which libraries can help us.
- We talked about the packing list and how it will interact with the user

Development project.....[15min]

- We talked about the use cases and derived functional requirements we wrote.
- We discuss what none-functional requirements apply to our project and talked about examples.
- We distributed the writing of the none-functional requirements among us.

Set date for next meetings.....[1min]

- We will meet two times next week, on Tuesday and Thursday @4pm
